

Bringing World Class Banking to You, All Through Video

Eltropy Video Banking transforms how Community Financial Institutions (CFIs) engage with their consumers, enabling secure, face-to-face service from anywhere, without the limitations of physical branches. Fully embedded in Eltropy's Unified Conversations Platform, it allows staff to open accounts, process loans, collect documents, and verify identities over video, all while boosting efficiency, reducing friction, and improving consumer satisfaction.

Whether deployed in-branch or remotely, Eltropy Video Banking brings expert-level service to consumers' pockets, helping CFIs expand reach, reduce abandonment, and drive real growth.

Key Benefits

Expand reach without new branches by serving consumers anywhere with remote and in-branch video.

Boost growth by driving more loans and accounts with always-available service.

Deliver human digital experiences by combining personal, face-to-face service with digital convenience.

Maximize staff efficiency by optimizing staffing across locations with virtual availability.

Reduce fraud and stay compliant with built-in ID verification, e-notary, and secure recordings.

 Show estimated wait times for chat and video requests, helping customers make informed decisions and reducing abandonment during peak hours.

 Remember camera, microphone, and speaker preferences across sessions for faster, seamless in-branch video calls without device reselection.
